

Record any patterns that you notice: Composite

Kind of all over the board. Some students higher than I expected.

Quite a few mid range.

Kneupfer

Record any patterns that you notice: Oral or Speaking

Students who participate more in class have a higher score

Record any patterns that you notice: Writing

Some of the students I would expect to be lower have fair scores.

Record any patterns that you notice: Composite

**consistent
across
domains**

Record any patterns that you notice: Oral or Speaking

**JR lower than
expected
speaking
score**

**speaking
scores tend to
stagnate once
students
reach a 4.5+**

Record any patterns that you notice: Writing

**Several
close
to 4**

Record any patterns that you notice: Composite

Composite and writing scores are very aligned

Wide composite range (3.2 - 5)

Lower speaking scores than composite

Record any patterns that you notice: Oral or Speaking

Speaking scores seem a lot lower than they should be

About a 1 point range between speaking and writing

Record any patterns that you notice: Writing

Less of a range in writing 3.2-4.8

Porterfield

Record any patterns that you notice: Composite

Large differences between composite scores and reading scores

Consistent scores across domains other than reading

Record any patterns that you notice: Oral or Speaking

High speaking scores for a couple of students

Low speaking scores for some students

Record any patterns that you notice: Writing

Writing Scores for all students in line with composite scores

Sarani
